

Lantern Riddle Activity for the Mid-Autumn Festival Concludes Successfully

To promote traditional Chinese culture and foster a festive atmosphere, the School's National Education and Chinese Culture Promotion Committee held a Mid-Autumn Lantern Riddle Activity on campus from September 21 to 25, inviting all students to take part.

The event featured a thoughtfully curated collection of diverse, intellectually stimulating, and engaging riddles that not only challenged students' thinking but also sparked their creativity. Gathered around the riddles, students were seen pausing in deep thought or forming small groups for lively discussion—inspiring one another and sharing the joy of that sudden flash of insight when the answer finally clicked. The activity also encouraged students to step outside the classroom and connect with their fellow schoolmates.

In a relaxed and cheerful atmosphere, the Lantern Riddle Activity allowed students to unwind and ease their stress, while also deepening their understanding of traditional festivals.
