

Welcome to the HCY website!

Established in 1977 and named after Mr Ho Chuen Yiu, JP, Tsuen Wan Public Ho Chuen Yiu Memorial College aims to provide quality education and a rich variety of learning experiences. Guided by our core values and our school motto, ‘Rest in the Highest Excellence’, we strive our best to inspire and nurture every single student—our cherished HCYers—to excel across academics, extra-curricular activities, and community service.

Throughout their six years of secondary education with us, HCYers acquire and are equipped with lifelong learning skills that enable them to continue learning and growing well beyond the classroom. The academic persistence and genuine enthusiasm for learning shown by our students give rise to numerous HCY scholars in universities and respected professionals in society who pursue knowledge and wisdom across different fields.

Our emphasis on value education instils positive values and attitudes into our HCYers, who are eager to serve and contribute their talents, strengths, and passion at school, in society, and to our country. Under a positive school climate and culture, our students enjoy their school life, flourish to achieve their personal goals, and serve to share their happiness with others.

Every HCYer is unique and talented in different areas. Our school provides ample learning opportunities across academic areas, school communities, sports, visual arts, and performing arts. We take immense pride in celebrating the successes of our outstanding leaders, athletes, visual artists, performing artists, and community contributors.

I hope this website leads you to understand more about the achievements of HCY over nearly 50 years and the essence of HCY education, offering you a wondrous journey alongside our students' happiest moments and memories.
