

## Exchange Activities with Sister Schools

The school had online exchange activities with the two mainland sister schools, Shenzhen Foreign Languages School and Fengtai No. 2 Middle School of Fengtai District, Beijing in early March, 2023. The theme of the exchange was music education. Students from the two sister schools and our school have learnt the focus and features of the music education of their counterparts through musical performances. Students shared their experiences, particularly joy and hard work in their orchestral practices. The event offered good learning opportunities to all the stakeholders. Students found the experience fruitful.
