

Economics (2019-20)

I) Curriculum Aims

The aims of the Economics curriculum are to enable students to:

- (a) develop an interest in exploring human behavior and social issues through an economic perspective;
- (b) understand the world in which they live through mastery of basic economic knowledge;
- (c) enhance their general intellectual capacity for life-long learning, through developing their capacities in economic analysis, so that they possess the skills necessary for reasoning about issues and making rational choices; and
- (d) participate as informed and responsible citizens in the decision-making processes of a modern democratic society.
