

## Other Learning Experiences

To help broaden students' vision and better understand our motherland and cultures of other countries and ethnic groups, the Committee organises different cross-border study trips to various cities for students for exchanges of ideas and experiences. The practice can enrich students' learning experience and make their study more enjoyable and rewarding. In July and August, there were in total two exchange programmes: one to South Korea and the other to Shanxi. During 4-8 August 2019, three students joined the government's study trip to South Korea to learn about its technology and culture. It was a fruitful experience to our students. The other exchange programme to visit Shanxi and inner Mongolia . Besides, F.3 and F.4 students joined the 2019 Military Summer Camp. They learned about the life of the garrison, some knowledge of armaments and learn the importance of discipline and spirit of unity.

The activities in July and August are listed below:
