

Aerosim Inter-School Aviation Tournament 2022

5 students took part in the “Aerosim Inter-School Aviation Tournament 2022” in May 2022. 5E Chan Chi Kai and 5E Pang Sheung Ho put on a good show and were enlisted as finalists. This tournament promoted students’ interest and understanding in aviation and STEM theories through learning, experiencing and competitions. This tournament did not only call for students’ application of STEM knowledge, but also challenge students’ practical flight techniques and preparation work. In addition, to foster more authentic understanding towards different sectors of the aviation business, participants were also be arranged to partake in various seminars and workshops hosted by professionals. (Students’ class shown is in 2021-22 academic year.)
