

## **Gold Award from CityU Science Video Competition 2022**

4B Liu Yat Yiu, 4B Yan Qingdong, 4D So Tsz Lung Danny, 4D Lo Long Yin, 4D Tsang Chun Ho, 4D Yam Kai Yin, 4E Choi Yan Hong and 4E Wan Lap Sing took part in the City University of Hong Kong (CityU) Science Video Competition 2022 on 29/7/2022. Our team triumphed over 160 teams and got the Gold Award.

**Congratulations!** (Students' classes shown are in 2021-22 academic year.)

Dr. Alex C. Y. Wong, Associate Professor of Department of Chemistry in City University of Hong Kong visited our school and presented the trophy to our team on 23/11/2022. He discussed and shared ideas with students on their project. He also introduced some new programmes offered by CityU, such as Bachelor of Laws and Bachelor of Science in Computing Mathematics and Global Research Enrichment and Technopreneurship (GREAT) programme. Thank you Dr. Wong!

Our video is named "Basketball, Trebuchet & Projectile Motion". The plot is about Samuel, who was inspired by a master, built a trebuchet, and verified the physics concepts of projectile motion. Since then, he played basketball much better and all of his classmates gave him the thumbs up.
