

Award for Caring for the Elderly 2022-2023

On top of *Hong Kong Volunteer Award 2022—Loving Heart School*, in June, our school was given another recognition: *Certificate of Appreciation for Caring for the Elderly 2022-23 (Getting Through Hardships Together Award)*. The programme is co-organized by the Tsuen Wan-Kwai Chung District Council, the Elderly Commission under the Social Welfare Department and a community organization for the elderly.

The school has always strived to nurture young people to become volunteers to serve the community.

In the past year, the society was still shadowed by the COVID-19, life was dull and inconvenient to almost everyone. In spite of such a difficult situation, in order to give our care to the elderly in the neighbourhood, our school was able to arrange tele-conversations with them through. In May, we also prepared 200 sets of well-wrapped gift for the Rotary Club of Hong Kong Neighbourhood Elderly Centre in Shek Wai Kok.

Besides, our team of student volunteers held *English for Fun* for the elderly from the same elderly centre in Shek Wai Kok. The course taught the elderly daily life English through specially designed activities and content. It combines fun and practicality and was well received by the elderly.

The school is pleased to have had our effort recognised and the award will drive us to continue our endeavour in caring for the elderly and helping the underprivileged. Our volunteer work will be there when in need.
