

Successful Exchange Activity with Sister School: Strengthening Bonds and Building Friendships

On 26th March, an exchange activity with our sister school, ShenZhen Foreign Languages School, was held successfully. Led by our Principal, Dr. Lau Sui Yee, Vice-Principal, Mr. Lui Hong Chung, and our Physical Education teachers, a team of boys and girls embarked on a visit to our Sister School. The highlight of the visit was the friendly basketball matches, which not only brought joy to the students but also fostered meaningful friendships.

The friendly basketball matches not only allowed students to showcase their skills but also created a platform for cultural exchange and the formation of lasting friendships. We believe that such exchange activities contribute to the holistic development of our students, fostering a sense of global citizenship and building bridges of understanding between different communities.
