

## Head Prefect's Sharing by 5C Suen Man Sum

Time flies, and in the blink of an eye, this year marks my third year as a leader, taking on the role of "Head Prefect." When I first joined the Prefect Team, I simply intended to serve the teachers and students. I never imagined taking on such a significant role. As the saying goes, "responsibility" and "ability" go hand in hand. As the "Head Prefect," I must shoulder various responsibilities and also demonstrate necessary capabilities. Not only do I have to manage the affairs of the Prefect Team, but I also have to be a good example to my schoolmates at all times. I believe this provides me with a great opportunity to improve myself and implement "responsibility." Being able to hold this position is a recognition from everyone at the school, so I need to respond to their support with the best actions. Thank you all for giving me this valuable opportunity, and I hope to serve everyone to the best of my abilities this year!

## Head Prefect's Sharing by 5E Cheng Hei Shun

Time flies in the blink of an eye. As this year's Head Prefect, I have been serving in the Prefect Team for four years. From being an Assistant Prefect in Form 2 to becoming a prefect in Form 3, and then serving as the Deputy Head Prefect last year, I have accumulated valuable skills and experiences. Especially when I pinned on the "Head Prefect" badge on my uniform, I felt a lot of pressure and got worried about whether I could fulfill the responsibilities of being the Head Prefect. After the first month of the new school year, I realized that I was very anxious about everything, but it was this worry that made me understand the importance of "sense of responsibility." Lastly, I am very grateful for the opportunity given by all of you to serve everyone at school. I hope to continue contributing to everyone during the remaining time of the school year. I will do my best to make more contributions to the school and my classmates. I also deeply cherish this opportunity and appreciate everyone's trust and support. Let's work hard together to create a better environment in HCY!
