

# The 57th Joint School Science Exhibition

Four senior form students and the school iGEM team HK-United participated in the 57th Joint School Science Exhibition. The exhibition held in the Exhibition Gallery, Hong Kong Central Library from 20th to 26th August 2024. The group proposed 'alginATE', an indoor carbon dioxide filter which aims to revolutionize indoor air pollution by harnessing the power of microalgae-based biofiltration technology. The iGEM team created a card game for education of biotechnology to the public.

The list of project holders is shown as below:

4D Lam Hin Kwan, 5D Lam Ming Xin, 5D Leung Hoi Ting, 5E Lo Wing Yiu Chelsea
