

Life-wide Learning Day 2025

In order to enable students to learn in authentic contexts and achieve learning objectives that are often difficult to realize in the classroom, the school organizes Life-wide Learning Day each year. Tailored to meet the diverse learning needs and goals of students across different grades, the school arranges a variety of experiences and activities aimed at promoting holistic development. These activities not only help students expand their knowledge horizons but also cultivate their lifelong learning abilities to address the ever-changing challenges of society. Through such practices, students are able to grow in diverse environments, developing problem-solving skills and innovative thinking.

This academic year's Life-wide Learning Day was held on 17 April, 2025. Students from Form 1 to Form 5 participated in various experiential learning activities, which are outlined below:
