

## **Outstanding Achievement in The “DIY Automatic Weather Station” Workshop**

With immense pride, we congratulate 5C Lin Yuxin Amy and 5D Lam Ying Tung Jasmine on their outstanding achievement in the “DIY Automatic Weather Station” Workshop organized by the Ho Koon Nature Education cum Astronomical Centre (Sponsored by Sik Sik Yuen), where they were awarded a Certificate of Appreciation.

This enriching workshop provided a fantastic opportunity for our students to personally engage in the DIY construction of miniature "automatic weather stations". Through this hands-on experience, they acquired valuable knowledge and skills encompassing intricate component assembly, precise programming techniques, and skillful instrument fabrication. Furthermore, they had the exciting chance to utilize their self-made weather stations to collect real-time weather data in the field and delve into fascinating concepts such as "microclimates", culminating in a comprehensive learning journey.
